One Piece Weatherstrip

One-piece Self-Sealing Weatherstrips provide inexpensive fixed-window installation. They are easy to install, lock the glass in place and give an efficient seal. These Weatherstrips are available in 50 ft. coils. Exact lengths from 12" to 144" are available on special quotation.

The range of dimensions shown in the chart applies to average conditions. Rubber gaskets should be tried in each specific application to insure the desired results.

For easier assembly of lock strips, lubricate lock strip channel by brushing soapsuds such as a mixture of green soap diluted 3 or 4 to 1. Do not use detergents containing phosphates.

RPM Part Number	A Glass Panel Thickness	B Body Panel Thickness	Min. Recom. Clearance glass/body Opening	Overall Width Installed	Min. Recom. Radius of Panel Opening	Weight Per Foot (lbs.)
