VACUUM LIFTERS

Vacuum Material Handling Tools

- Grip and hold oiled or dry sheet metal, glass, plastics, and other smooth surfaces
- Keeps operators hands safely away from hazards and releases parts quickly
- Speed production work as much as 25% increase efficiency of operator
- Pistol-grip design allows easy, positive, holding even with bulky work gloves
- Eliminate costly damage to stock material
- All metal parts are precision made for extra durability

Safety programs require punch press operators to use a hand tool when feeding or removing work from the die, to avoid placing hands within the point of operation. We offer a full range of tools specifically designed for punch press use. They improve operator confidence, increase production up to 25% and cut down breakage.
