

# CB-2205-14

in Two-Piece Mounts - CB-2200 Series

Two-Piece Mounts are designed for applications involving severe dynamic forces in the static load direction, as well as the rebound direction. Travel is limited in both directions by rubber in compression which provides snubbing.

These mounts are designed to support engines, cabs and accessory units, accommodate frame racking and twisting while isolating vibration and absorbing shock.

Typical applications for Two-Piece Mounts include on-highway, off-highway vehicles, construction and industrial machines.

Non-Stock Item, please contact Lord Corporation for availability

- Dynamically effective in all directions.
- Prevent mechanical transmission of noise.
- Accommodate misalignment and distortion.
- High rebound capacity.
- Easy to install with common tools.
- Standard bolt torque assures proper assembly.
- Top and bottom parts alike, cannot be misassembled.
- Fail-safe assembly.
- Sized for English and Metric bolts.
- Long dependable service life.
- Economical.
